

**Informing all young people
about ways to experience
the world.** —————

eurodesk

eurodesk

Eurodesk is a European network of over 1000 youth information providers in 34 countries. Together, we aim to raise awareness on mobility opportunities for young people and encourage them to become active citizens.

Since 1990, Eurodesk has offered targeted and youth-friendly information on European opportunities and has continuously promoted the right for all young people to freely access quality information, guidance and support.

EURODESK.EU

Eurodesk is one of the most comprehensive and accessible sources of free youth information about national, regional and international mobility opportunities.

**ESTABLISHED
IN 1990**

ACTIVITIES**

**AROUND 350
TRAININGS
ORGANISED FOR
YOUTH WORKERS**

**16M PAGE VIEWS
ON THE EURODESK
PAGES**

**19M PAGE VIEWS
ON THE EUROPEAN
YOUTH PORTAL**

**665K FRIENDS
AND FOLLOWERS
ONLINE**

Eurodesk works with a wide variety of programmes and partners to promote free mobility opportunities across Europe. Eurodesk works on a daily basis to empower young people and youth professionals. Our services are youth-oriented, free of charge and easily accessible.

YOUTH INFORMATION SERVICES

Eurodesk's **Programme Database** offers an extensive library filled with national, regional and European opportunities for young people that is accessible via our **European and national websites and social media channels**.

Through a coordinated approach, national Eurodesk offices promote and raise awareness on mobility and youth participation, via online communication tools and **face-to-face events** such as fairs and high visibility events.

Eurodesk maintains the **European Youth Portal** with multilingual and youth-friendly information and answers thousands of enquiries from young people via the **'Ask a Question'** helpdesk service.

REACHING OUT TO YOUNG PEOPLE

Eurodesk organises a campaign every October called **Time to Move**, with over 800 events taking place in more than 20 European countries. Through elaborate communication strategies, Eurodesk manages to reach out to a wide variety of young people with an emphasis on youth with fewer opportunities.

Each year the most creative and effective multiplier projects, aiming to reach out to young people, are highlighted at European level via the **Eurodesk Awards**.

Eurodesk also works in close collaboration with schools around Europe to provide information about mobility opportunities to pupils, through the project **Euroclasses**.

CAPACITY BUILDING

Eurodesk works to provide the same quality services all over Europe. Through an extensive **training programme, peer learning and job shadowing activities**, Eurodesk works to empower youth information workers in their daily job. Eurodesk also organises a yearly **international seminar** for multipliers that provides space and time for developing skills and networking.

Via an **advanced intranet system**, Eurodesk National coordinators and Multipliers exchange key expertise nationally and internationally and support each other in answering enquiries.

Each year, the outcome of this work is monitored through a **Quality Catalogue**.

WHY PARTNER WITH EURODESK?

Strong knowledge in online interactions through web communication social media and IT tools

Experience in providing training services for youth (information) workers

Almost 30 years of experience with mobility programmes and opportunities

A diverse network of multipliers to reach out to a wide variety of young people and adapt to local and national needs

Specific know-how in informing and engaging young people

The Eurodesk network consists of Eurodesk Brussels Link - the European coordinating body, National coordinators and local Multipliers. Interested in collaborating with us or joining our network? Find our contacts here. For general enquiries: info@eurodesk.eu.
